

Vacuum Heating and Drying ovens Type VHT 65/50 E

Application

Drying of electronic components
under vacuum

Branch

Electronics industry

Technical Data

Rated temperature: +200°C
Heating: electric

Interior dimensions:

Width 660 mm
Height 530 mm
Depth 735 mm

Number of shelves: 3
Height above shelves: 130 mm
Useful area: 1.25 m²
Vacuum connection: DN 40 KF
Connected load: 3 kW

System description

- Electrically heated shelves
- Interior and shelves stainless steel material class No. 1.4571
- Outer casing stainless steel, material class No. 1.4301
- Digital multi-channel controller
- Door with double-jointed hinges
- Analogue pressure indicator
- Safety cut-out
- Air inlet valve

Special features

- Vacuum pumping unit incl. sliding vane rotary pump integrated in base
