Pre-Owned & Refurbished Environmental Test Equipment

We Sell Equipment...

Envirotronics offers pre-owned and refurbished equipment for sale at reduced prices. The same high standards we apply to our pre-engineered and custom chambers are applied in the refurbishment of pre-owned equipment. This provides a viable alternative to purchasing brand-new equipment. You will also receive the same commitment to service that we give new equipment, with 24-hour emergency service and complete engineering support.

A current list of equipment that we have available can be found on our website at www.envirotronics.com/used.html. Information available through this page will include the equipment model number, the type of product, and any instrumentation that may be included. Occasionally, additional information will also be available on our website, including a photo of the equipment. In an effort to ensure that our listings are current, the pre-owned and refurbished equipment information listed on our website is updated on a regular basis.

In addition, information regarding any of the equipment items listed on our website can also be obtained by contacting our sales department and speaking to one of our salespeople.

Contact our Sales Department at:

Tel: 616-554-5020
Fax: 616-554-5021
Email: sales@envirotronics.com

We Buy Equipment...

Envirotronics purchases surplus and used test equipment for resale and we will also accept trade-ins on some models. Equipment we typically look for includes most makes and models of:

- Temperature Chambers
- Temperature/ Humidity Chambers
- Liquid Chillers and Bath
- Altitude Chambers
- Walk-in Chambers
- A.G.R.E.E. Chambers
- Portable Air Handlers
- Vibration Equipment

Do have environmental test equipment that you wish to sell or trade? Contact our sales department for an evaluation.
