

# Impact Your Business More... and the Environment Less.

Begin preparing for the future standards and regulations as far as the use of more environmental friendly refrigerants is concerned. At Weiss Technik, our unique energy efficient designs and low GWP (Global Warming Potential) R-449A refrigerant protect the planet while boosting your bottom line. It's a win-win for the future of the earth and the future of your business.

Let Weiss Technik help modernize your testing and improve your environmental stewardship.

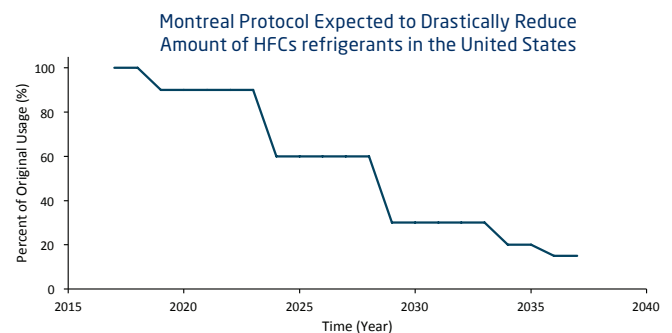

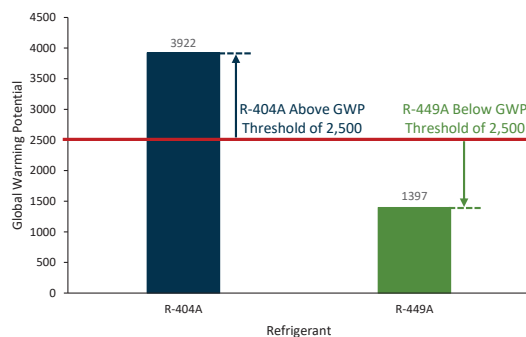

## Customer Benefits

- R-449A was specifically designed to replace R-404A
- Applicable in ALL Weiss Technik test chambers now using R-404A
- Lower Energy use when used in conjunction with LEEF Technology
- Solutions available for both new and existing test chambers
- Lower Carbon Footprint
- Supports Corporate & Federal Sustainability Programs
- R-449A Complies with EU Reg. No. 517/2014 regarding 2,500 GWP limit
- Avoids availability and pricing issues of high GWP hydrofluorocarbons (HFCs) refrigerants expected in the United States per the Montreal Protocol

Low Global Warming Potential  
Refrigerants
